**Management’s Discussion & Analysis**  
**for the 2<sup>nd</sup> Quarter Ended – July 31, 2021**  
**(and containing information as of September 29, 2021)**

**Item 1: INTERIM MD&A**

**Introduction**

Management’s Discussion and Analysis (“MD&A”) focuses on significant factors that affected Belmont Resources Inc.’s performance and factors that may affect its future performance. In order to better understand the MD&A, it should be read in conjunction with the unaudited financial statements of the Company and the notes thereto for the 2nd Quarter ended July 31, 2021 with comparatives to July 31, 2020; copies of which are filed on the SEDAR website: [www.sedar.com](http://www.sedar.com).

The Company reports its financial statements in accordance with International Financial Reporting Standards (“IFRS”). The Company’s financial statements and the MD&A are presented in Canadian dollars and are intended to provide a reasonable basis for the investor to evaluate the Company’s development and financial situation.

**Forward-Looking Statements**

This MD&A contains “forward-looking information” and “forward-looking statements” which include, but are not limited to, statements or information concerning the future financial or operating performance of Belmont Resources Inc. and its business. Forward-looking statements are projections of events, revenues, income, future economic performance or management’s plan and objective for future operations. In some cases, you can identify forward-looking statements by the use of terminology such as “may”, “should”, “expects”, “plans”, “anticipates”, “believes”, “estimates”, “predicts”, “potential” or “continue” or the negative of these terms or other comparable terminology. Examples of forward-looking statements made in this MD&A include statements about the Company’s business plans; the costs and timing of its developments; its future investments and allocation of capital resources; success of exploration activities; requirements for additional capital; and government regulation of mining operations. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including: general economic and business conditions; fluctuations in worldwide prices and demand for minerals; our lack of operating history; the actual results of current exploration activities; conclusions or economic evaluations; changes in project parameters as plans continue to be refined; possible variations in grade and recovery rates; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes or other risks of the mining industry; delays in obtaining government approvals or financing or incompleteness of development or construction activities, any of which may cause our or our industry’s actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

While these forward-looking statements and any assumptions upon which they are based are made in good faith and reflect our current judgments regarding the direction of Belmont Resources Inc.’s business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested herein. Except as required by applicable law, including the securities laws of Canada, the Company does not intend to update any of the forward-looking statements or conform these statements to actual results.

In March 2020 the World Health Organization declared the outbreak of COVID-19 a global pandemic. The actual and threatened spread of the virus globally has had a material adverse effect on the global economy and; specifically, the regional economies in which the Company operates. The pandemic could continue to have a negative impact on the stock market, including trading prices of the Company’s shares and its ability to raise new capital. These factors, among others, could have a significant impact on the Company’s operations

**Cautionary Note to Investors Concerning Estimates of Measured and Indicated Resources:** This discussion may use the terms “measured resources” and “indicated resources”. The Company advises investors that while those terms are recognized and required by Canadian regulators, the U.S. Securities and Exchange Commission does not recognize them. **Investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be converted into reserves.**

**NATURE OF BUSINESS:**

Belmont Resources Inc. (the “Company”) was incorporated January 18, 1978 under the laws of the Province of British Columbia. The Company is listed on the TSX Venture Exchange as a Tier 2 mining exploration issuer, and is primarily engaged in the acquisition, exploration and development of resource properties. The shares of the Company trade on the TSX-V under the symbol “BEA”.

**1.1 DATE: – SEPTEMBER 29, 2021**

The following discussion and analysis was approved by the Directors of the Company and should be read in conjunction with the unaudited consolidated financial statements for the quarters ended July 31, 2021 and comparative 2020; and the accompanying notes thereto. All figures are in Canadian dollars unless otherwise noted.

**1.2 OVERALL PERFORMANCE AND DEVELOPMENT:****(a) Crackingstone River (“CRR”) –Uranium City area, Northern Mining District, Northern Saskatchewan**

**During the year ended January 31, 2013**, the Company assessed the likelihood of funding exploration activities and the ability to attract a suitable joint venture partner to participate on its property as very low due to global concerns of uranium use and overall market conditions. Accordingly, the Company has charged an additional impairment of \$199,999 to the property reducing it to a nominal \$1.

**June 3, 2021 –The Company arranged a debt settlement with a related party receivable. The related party was indebted to the Company for rent & office services. The Company agreed to a cash payment of \$30,000 and receipt of 50% of the Uranium City, Saskatchewan claims. The Company now owns 100% of these claims, subject to a 3% Net Smelter**

**(b) Kibby Basin – Esmeralda County, Nevada-U.S.A.**

On **March 29, 2016** the Company entered into a Property Purchase Agreement (the “Agreement”) with Zimtu Capital Corp. (“Zimtu”) to acquire a 100% interest in the Kibby Basin Property (the “Property”) located 65 km north of Clayton Valley, Nevada-U.S.A. Terms of the Agreement are:

- Pay to Zimtu the sum of \$25,000 as follows:
  - (i) \$5,000 upon signing of the Agreement (**paid**).
  - (ii) \$20,000 upon regulatory approval of the Agreement (**paid**).
- Issue 125,000 common shares of Belmont to Zimtu as follows:
  - 62,500 common shares upon regulatory approval (**issued**) and
  - 62,500 common shares at six months from regulatory approval (**issued**).

The Agreement is subject to a 1.5% NSR of which the Company has the right to purchase half (50%) from Zimtu, at any time for \$1,000,000

On **May 26, 2016** the Company the TSX Venture Exchange (the “Exchange”) has accepted for filing the Property Purchase Agreement (the “Agreement”) to acquire a 100% interest in the Kibby Basin Property (the ‘Property’) located 65 km north of Clayton Valley, Nevada-U.S.A.

In addition, the Exchange has accepted for filing the NI 43-101 Technical Report dated May 26, 2016. Further information on the Technical Report can be reviewed as filed on SEDAR and on the Company’s website Project page at [www.BelmontResources.com](http://www.BelmontResources.com)

**2016 – 2018**

- **Details of exploration and developments for 2016 through to 2018 can be found on the April 30, 2019 Management Discussion & Analysis as filed on SEDAR.**

**During 2019:**

- **March 1, 2019** - After making significant alterations to their drill equipment on location; Harris Drilling re-commenced drilling on hole KB-4. Highly unusual weather conditions in the area including snow, freezing rain, and ice earlier in February; were also a cause for the delay in restarting hole KB-4.
- **March 21, 2019 – The State of Nevada Department of Conservation and Natural Resources – Division of Water Resources has approved Belmont’s application for water rights.** The two well permits to develop groundwater (brine) in the Monte Cristo Groundwater Basin may be the first of their kind in Nevada.
- **March 21, 2019** – The Company reported that hole KB-4 has completed at a depth of 840 feet into lakebed sediments.
- **May 2, 2019** – The Company reports assay results of Hole KB-4 on Kibby Basin, Nevada. For further details, review the news release as filed on SEDAR and on the Company website.

**During 2020:**

- **August 31, 2020** – The Company has paid the Annual Fees in the amount of \$21,220 USD to the Bureau of Land Management – Nevada. The property is in good standing. The Company is searching for an option or joint venture partner to continue advancing the exploration and development of this property.

**2021:**

- **February 26, 2021-** The Company announced that it has staked an additional 10,868 acres (4,398 ha) covering nearly the entire Kibby Basin bringing the total claim area to 16,012 acres (6,480 ha). With the additional claims Belmont now controls land covering most of the entire Kibby Basin.
- **April 19, 2021** – The Company filed with the State Engineer for the State of Nevada, an ‘Application for Extension of Time for Filing Proof of Completion of Work’ regarding a one year extension to its Water Permit.

**(c) Pathfinder Property, Greenwood Mining Division, southeastern British Columbia**

**March 27, 2019** - The Company entered into arm’s length acquisition agreement with David Heyman & Clive Brookes (the “Vendors”), to acquire 253.34 hectares of mineral claims which is part of the former Pathfinder Property, located in southern British Columbia, approximately 18 km north of Grand Forks, in the Greenwood Mining Division. The property covers a highly mineralized area at the northeastern edge of the Boundary Mining Camp; also known as the historically productive and larger Republic-Greenwood Gold District. Copper and gold mining in this camp dates back to the turn of the century.

Pursuant to the Agreement, in order to complete the acquisition the Company must:

- Pay the Vendors \$25,000 upon signing (**paid**);

- **Issued** a total of (on a post-consolidation basis) 187,500 common shares and 187,500 warrants (to each Vendor 93,750 common shares of the Company and 93,750 transferable warrants exercisable at a price of \$0.80 per share for a period of two years from the approval date, as set out below:
  - (i) 156,250 common shares and 156,250 warrants (78,125 shares and 78,125 warrants to each vendor on the approval date (**issued**);
  - (ii) 31,250 shares and 31,250 warrants to the vendors (15,625 shares and 15,625 warrants to each vendor) on the one year anniversary of the Agreement date (**issued**);

A 1.5% Net Smelter Return Royalty (“NSR”)- 0.75% to each Vendor. The Company may acquire one-half of the NSR for \$1 million upon commencement of commercial production on the Property.

**April 15, 2019** – The TSX Venture Exchange has accepted for filing documentation in connection with the mineral property acquisition agreement dated March 27, 2019 between David Heyman and Clive Brookes (the Vendors) and Belmont Resources Inc.

**May 9, 2019** – The Company engaged a geological consultant to visit the Pathfinder property to complete an initial assessment of the property. The proposed work program details can be reviewed in the news release as filed on SEDAR and on the Company website.

**July 30, 2019** – The Company received a positive Summary Report from the consulting geologist, who recently completed his visit to the property. The report gives details of surface rock sampling and compilation of previously published and un-published reports. Details of the work carried out, and sample assay highlights can be further review in our news release as filed on SEDAR and the Company website.

**October 17, 2019** – The Company reported further encouraging assay results on surface sampling. Gold, Silver and Copper results were identified with a high of 5.228 ppm Au, 35.86 ppm Ag, 2.07% Cu, and 1486.8 ppm Co. Further details can be reviewed in the news release as filed on SEDAR and the Company website.

## 1.6 LIQUIDITY:

At July 31, 2021 the Company had a working capital deficit of (\$63,717) compared to January 31, 2021 working capital of \$148,377. The Company expended \$179,031 on operating activities during the period ending July 31, 2021. The Company raised gross proceeds of \$391,791 through the issuance of securities during the period ended July 31, 2021 through private placements, and the exercise of warrants and options. The Company has limited working capital to continue administrative operations and to provide care and maintenance on its mineral properties, however, anticipates arranging further private placement financings and warrants being exercised to raise financing in order to continue developing its properties.

## 1.7 CAPITAL RESOURCES:

The Company's ability to continue as a going concern in the short term is dependent upon its ability to obtain financing. The Company obtains financing by the issuance of share capital or from the disposition of its mineral prospects. Although the Company has been successful in the past in obtaining financing, there can be no assurance that it will be able to obtain adequate financing in the future or that the terms of such financing will be favorable. Failure to obtain additional financing in the near future may result in the delay of exploration on new acquisitions.

### **During the first quarter ended April 30, 2021 the following share issuances occurred to raise share capital and for property acquisition payments:**

- **February 4, 2021** – Issued 375,000 common shares @ \$0.07 through the exercise of stock options for gross proceeds of \$26,250.
- **February 10, 2021** – Issued 1,672,000 units (the “Units”) at a price of \$0.07 per Unit for gross proceeds of \$117,040. Each Unit consisted of one common share of the Company and one transferable share purchase warrant (a “Warrant”). Each whole Warrant will permit the holder to acquire one additional share of the Company at a price of \$0.10 until February 10, 2023. The warrant terms may be accelerated.
- **February 17, 2021** – Issued 100,000 common shares at \$0.06 through the exercise of stock options for gross proceeds of \$6,000.
- **February 19, 2021** – Issued 350,000 common shares at \$0.08 through the exercise of warrants for gross proceeds of \$28,000.

- (ii) May 27, 2020 Come by Chance Property Agreement**

- 200,000 additional common shares on the two-year anniversary of the Agreement date.

**1.11 CRITICAL ACCOUNTING ESTIMATES:**

Our financial statements have been prepared in conformity with International Financial Reporting Standards (“IFRS”) and form the basis for discussion and analysis of critical accounting policies and estimates. Management is required to make estimates and assumptions that affect the report amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the period. Significant financial statement areas requiring the use of management estimates relate to the determination of impairment of assets and resource property interests, and their useful lives for amortization, the fair value of investments and share-based compensation, and the recoverability of future income tax assets. Financial results as determined by actual events could differ materially from those estimates.

Risk management:

The Company's mineral property holdings and exploration activities create potential exposure to environmental liabilities, including site reclamation. The Company is currently in the initial exploration stages on its United States property interests and management has not determined whether significant site reclamation costs will be required. The Company records liability for site reclamation when determinable on a systematic accrual basis in the period in which such costs can be reasonably determined.

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities as they come due. Due to current economic conditions in capital markets the Company has a high risk associated with liquidity. The Company does not hold complex financial instruments or significant long-term assets.

**1.12 CHANGES IN ACCOUNTING POLICIES INCLUDING INITIAL ADOPTION:**

None

**1.13 FINANCIAL AND OTHER INSTRUMENTS:**

The Company's financial instruments consist of cash, marketable securities, accounts receivables, amounts due to and from related parties, and accounts payable and accrued liabilities. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency risks arising from financial instruments. The fair value of these financial instruments approximates their carrying value due to their short-term maturity or capacity of prompt liquidation.

**1.14 OTHER MD&A REQUIREMENTS:**

Additional information relating to the Company's operations and activities can be found by visiting the Company's website [www.BelmontResources.com](http://www.BelmontResources.com) as well as numerous news releases and NI 43-101 reports filed on SEDAR at [www.sedar.com](http://www.sedar.com)

**April 28, 2017 - DTC Eligible:**

Belmont Resources Inc. has been made eligible for book-entry delivery and depository services of the Depository Trust Company (DTC) to facilitate electronic settlement and transfer of its common shares on the U.S. stock exchange OTC.

The Depository Trust Company is one of the world's largest securities depositories. While there is no requirement that any security be held at DTC to trade, many brokerage firms and issuers want to take advantage of the efficiencies and cost benefits that DTC offers.

As the Company is now eligible; DTC, through its nominee Cede & Co., it is the registered holder of the securities, routinely managing the electronic, book-entry transfers of interests in securities among participants.

This electronic method of clearing securities accelerates the receipt of stock and cash, and thus streamlines the settlement process for investors and brokers, enabling the stock to be traded over a much wider selection of brokerage firms by coming into compliance with their requirements.

**Annual General Meeting:**

**July 30, 2020** - The nominees listed in the management Information Circular for the 2020 Annual General Meeting of Shareholders (the "AGM") held on July 30, 2020 were elected as directors of the Company. #### **D. Evaluation of Disclosure Controls and Procedures**

An internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. The Company operates with a small executive board and internal staff. Accordingly, lack of segregation of duties is an identified internal control weakness. There have been no significant changes in the Company’s system of internal financial controls over the past year.

The Company’s interim and annual filings and other reports filed or submitted under Canadian securities laws are recorded, processed, summarized and reported within the time periods specified by those laws and that the material information is accumulated and communicated to Management of the Company, including the President and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

#### **E. Corporate Governance Disclosure**

The Company submitted to its members and shareholders details in the Information Circular dated **June 25, 2020** Corporate Governance Disclosure guidelines that have been presented to the Board of Directors for periodic review. Some of these guidelines are: Outlining the Company’s business and implementation of appropriate systems to manage any associated risks, communications with investors and the financial community and the integrity of the Company’s internal control and management information systems. The Management of the Company periodically updates directors with regulatory policy changes. The Board has found that the fiduciary duties placed on individual directors by the Company’s governing corporate legislation and the common law and the restrictions placed by applicable corporate legislation on an individual director’s participation in decisions of the Board in which the director has an interest have been sufficient to ensure that the Board operates independently of management and in the best interests of the Company. The Company’s Information Circular can be reviewed on [www.Sedar.com](http://www.Sedar.com)

#### **F. Risks and Uncertainties**

The Company’s principal activity is mineral exploration and development. Companies in this industry are subject to many and varied kinds of risks, including but not limited to, environmental, metal prices, political and economical.

The Company has no producing properties, no significant sources of operating cash flows and consequently

no sales or revenues from operations. The Company has either not yet determined whether its mineral properties contain mineral reserves that are economically recoverable or where reserves have been determined, mining operations have not yet commenced. The Company has limited financial resources. Property interests in whom the Company owns are in the exploration stages only, are without and may not result in any discoveries of commercial mineralization, and have no ongoing mining operations. Mineral exploration involves a high degree of risk and few properties, which are explored, are ultimately developed into producing mines, the result being the Company will be forced to look for other exploration projects.

The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous materials and other matters.

The Company is exposed in varying degrees to a variety of financial instrument related risks.

Credit Risk:

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts. As most of the Company's cash is held by one bank there is a concentration of credit risk. This risk is managed by using major banks that are high credit quality financial institutions as determined by rating agencies.

Foreign Exchange Risk:

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company's functional currency is the Canadian dollar. There is minimal foreign exchange risk to the Company as its mineral property interests are located in Canada.

Interest Rate Risk:

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk relates to its ability to earn interest income on cash balances at variable rates. The fair value of the Company's cash accounts is relatively unaffected by changes in short term interest rates.

Liquidity Risk:

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages this risk by careful management of its working capital. Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding. The Company had a working capital deficit of \$63,717 as at July 31, 2021, and as discussed in Note 1: Going Concern, will require additional funding for ongoing operations and exploration.

Price Risk:

The Company is exposed to price risk in relation to its listed marketable securities held. A 10% change in the market would result in a change of approximately \$305 to comprehensive loss. Management regularly reviews the expected returns from holding such investment on an individual basis.
